

7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

There are different types of waste disposed of in the college for which there is a proper system functioning. The following wastes are being disposed of by the college:

Solid Waste Management

The college has a place on its campus where the solid waste materials are disposed of and well supervised by the NSS units in keeping with the system of the solid waste management Scheme. However, there does not exist more waste from college.

Liquid Waste Management-The waste water is carried out through the pipeline. This system is made by the Municipality of Vickramasingapuram.

Biomedical Waste Management- There is no biomedical waste management system in the college.

E-waste Management- There is no e-waste management system in the college.

Waste recycling system- There is no system of Waste recycling in the college. However, there is a rainwater harvesting system in the college.

The e-medical Waste Management- There is no e-medical waste management system in the college.

Hazardous chemicals and radioactive waste management- There is no Hazardous chemicals and radioactive waste management system in the college.
